EXECUTIVE PERSONNEL RDS KIT

Pictured above is a typical **Executive** kit containing our RDS Solutions for Actinides and Transition Metals, Rad-Wipes, Iosat KI pills, 95N masks, Rad-Waste bags and tags, and an instruction manual (not pictured). Our Executive kits are made to order and the contents may vary depending on the customer's requirements. We use only the finest quality metal cases and equipment well suited for the customer's application.

Kit contents may include:

- A durable Aluminum case – Standard is 20"X14"X7.5" and weighs 14#.
- RDS Solutions in quart plastic bottles with trigger sprayers, or pressurized containers if required (Pressurized containers shown above cannot be shipped by air.)
- A radiation detector that will work for, at least, beta and gamma having a meter display (A Premium Ludlum 14-C with Pancake 44-9 probe, but other models are available).
- Packages of Iosat Potassium Iodide pills, 14 tablets per sleeve (1 pill is dose per day for adults ½ pill for children).
- Personal Protection Gear: N-95 masks, Latex gloves, Tyvek Suits, Boots, Hoods, Etc.
- Rad-Waste Supplies packaged in a convenient zip-lock bag.
- A package of 45 Rad-Wipes.
- Tongs.
- Instruction Manual.
- Empty quart rinse bottle with trigger sprayer.
- Any other equipment that the customer may specify and require.
